with architect Julie Larry, Director of Advocacy  
for Greater Portland Landmarks  
Tuesday, September 18 @ 7:00 p.m.

The American Dream of home ownership was fostered by reformers, developers, and building material companies in the early 20th century. This program will discuss the history of kit home manufacturing in this country and illustrate the variety of styles available from manufacturers and the various ways you can identify a kit home. You may even be living in a Sears Catalog House or have in your older home an architectural feature, such as a mantel, purchased by mail
